

Pierpont Racquet Club Junior Swim
Qualification Test/Form (14-17 yrs)

--	--	--	--	--

Member Number

Youth between 14 and 17 may swim in the pools without supervision only if there is this signed permission slip from their parent/guardian and they have passed a qualification test.

_____ born _____ passed the qualification requirement by the PRC to allow him/her to swim during regular pool hours. The swim test for this age group consists of **two lengths of the indoor pool of front crawl and backstroke followed by 3 minutes of treading water.**

Swim test administered on _____ by _____ Pass ____ No pass ____

It is understood that the PRC does not have a lifeguard on staff during all hours of operation. It is also understood that the two lanes near the windows are for lap swimming. The other (wider) lane is for non-lap swimming and children. In the outdoor pool, one lap lane is restricted to adults only.

Pool safety must always be of foremost consideration. The following rules apply to both pools:

1. No running, splashing or horsing around.
2. No food or glass containers around the pool and whirlpool areas.
3. No playing with kickboards, tennis balls, barbell buoy's or pull floats. These are tools, not toys.
4. Do not sit, stand, hang on or remove the lane lines.
5. Use the "buddy system" at all times. Never swim alone.

The PRC pool can accommodate only a limited number of people. It is essential that all pool area users be courteous to others. To avoid accidents from overcrowding, there are times when one must wait to enter the pool. Please think of safety first!

Incidents of unsafe or discourteous behavior will result in forfeiture of unsupervised swim privileges.

As _____ 's parent/guardian, I agree to inform my child of the above rules and policies, and will take the responsibility to enforce them. I/we hereby waive and release any and all rights and claims for damages I/we may have against the PRC and its employees for any and all injuries suffered by my/our child(ren) in conjunction with their participation in unsupervised swimming.
